If you are a woman living with ovarian cancer and would like access to your own Ovarian Cancer Nurse, then the Teal Support Program is for you.

WHAT IS THE TEAL SUPPORT PROGRAM?

The Teal Support Program supports women with ovarian cancer throughout their diagnosis, treatment and beyond. The main aim of the program is to provide continuity of care when you are not regularly seeing your treating team and focus on areas of care where there are unmet needs.

HOW DOES IT WORK?

Your Ovarian Cancer Nurse will work closely with your specialised health services and link back to your treating medical team. The program will become an extension of your treating medical team. The program aims to prevent you from feeling isolated or unsupported. Your Ovarian Cancer Nurse will be able to relay information to your medical team and gain guidance for you about the best way to support and treat you.

WHO ARE THE TEAL SUPPORT PROGRAM TEAM?

The team are employed by OCA. They are all trained oncology/gynaecological nurses with years of experience caring for women with ovarian cancer. The nurses are based in Melbourne and will support women across Australia using telehealth. There will be no face to face service. The team has access to a counsellor and a social worker to refer women to, if needed. The service will be available Monday to Friday from 9am to 5pm AEST.

“The support and information is invaluable. You have 1 on 1 with a nurse for as long as you need it.”

– Jennie.
